For residents of Illinois:

It is required by state law to inform you that you can obtain information from the national consumer reporting agencies and the Federal Trade Commission about fraud alerts and security freezes.

For residents of Massachusetts and West Virginia:

It is required by state law that you are informed of your right to obtain a police report if you are a victim of identity theft. You also have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans and services from being approved in your name without your consent; however, using a security freeze may delay your ability to obtain credit.

To place a security freeze on your credit report, you need to send a request to a consumer reporting agency by certified mail, overnight mail, or regular stamped mail. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or compliant with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. The consumer reporting agency may charge a fee of up to \$5.00 to place a freeze or lift or remove a freeze, unless you are a victim of identity theft or the spouse is a victim of identity theft, and you have submitted a valid police report relating to the identity theft incident to the consumer reporting agency.
