Dear <<MemberFirstName>> <<MemberLastName>>,

We are writing to tell you about a data security incident that may have exposed some of your personal information. We take the protection and proper use of your information very seriously. For this reason, we are contacting you directly to explain the circumstances of the incident.

On December 30, 2015, a laptop issued by Shire Human Genetic Therapies, Inc. was stolen from the car of an employee of a Shire company. The theft occurred in Washington, D.C., and the employee immediately reported it to local law enforcement. Upon receiving notice of the theft, we promptly initiated steps to evaluate the contents of the laptop. Subsequently, after identifying and analyzing a backup copy of the laptop, we determined that the stolen laptop contained some of your personal information, which may have included your name, date of birth, address, telephone number, the last four digits of your social security number, dates of treatment, description of medical condition, and the therapeutic drug you may have used. This information came from 2014 Shire records.

We are confident that this theft was an isolated and unfortunate event. There is no evidence that your personal information has been misused, or that it was even the target of the theft. In an abundance of caution and to alleviate any concerns, we are also taking steps to prevent any potential misuse of your personal information. We have secured the services of Kroll to provide identity monitoring at no cost to you for one year. As explained further in the additional materials provided by Kroll and enclosed with this letter, the services include credit monitoring, website monitoring, identity theft consultation and restoration, and up to \$1 million in identity theft insurance.
