Re: **NOTICE OF DATA BREACH**

Dear <<Name 1>> <<Name 2>>:

Infosys McCamish Systems, LLC (“IMS”), on behalf of itself and Principal Life Insurance Company (“Principal”), writes to inform you of an incident that involved some of your personal information. IMS supports Principal as a third-party administrator for Principal’s Group Universal Life Insurance certificates. Please note that Principal’s internal systems were not compromised because of this incident, and no data was exfiltrated from systems maintained by Principal. While we are unaware of any instances since the incident occurred in which the personal information involved has been fraudulently used, we are providing you with information about the incident and steps you can take to protect your personal information, should you feel it necessary to do so.

WHAT HAPPENED? On November 2, 2023, IMS became aware that certain IMS systems were encrypted by ransomware (the “Incident”). That same day, IMS began an investigation with the assistance of third-party cybersecurity experts to determine the nature and scope of the activity, assist with containment, and ensure no ongoing unauthorized activity. IMS also promptly notified law enforcement. Please note that the Incident was contained and remediated in November 2023.

An in-depth cyber forensic investigation determined that unauthorized activity had occurred between October 29, 2023, and November 2, 2023. Through the investigation, it was also confirmed that data had been subject to unauthorized access and acquisition. With the assistance of third-party eDiscovery experts, IMS proceeded to conduct a thorough and time-intensive review of the data at issue to identify the personal information subject to unauthorized access and acquisition and determine to whom the personal information relates. After this comprehensive review, it was determined that some of your personal information was subject to unauthorized access/acquisition.

WHAT INFORMATION WAS INVOLVED? The investigation determined that the following types of your personal information were involved: your name and <<<Insert individual data elements>>>.

When you receive your credit reports, review them carefully. Look for accounts or creditor inquiries that you did not initiate or do not recognize. Look for information, such as home address and Social Security number that is not accurate. If you see anything you do not understand, call the credit reporting agency at the telephone number on the report.

Credit Freeze

You have the right to put a security freeze, also known as a credit freeze, on your credit file, so that no new credit can be opened in your name without the use of a Personal Identification Number (PIN) that is issued to you when you initiate a freeze. A credit freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a credit freeze, potential creditors and other third parties will not be able to access your credit report unless you temporarily lift the freeze. Therefore, using a credit freeze may delay your ability to obtain credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. Should you wish to place a credit freeze, please contact all three major consumer reporting agencies listed below.

You must separately place a credit freeze on your credit file at each credit reporting agency. The following information should be included when requesting a credit freeze:

- 1) Full name, with middle initial and any suffixes;
- 2) Social Security number;
- 3) Date of birth (month, day, and year);
- 4) Current address and previous addresses for the past five (5) years;
- 5) Proof of current address, such as a current utility bill or telephone bill; and
- 6) Other personal information as required by the applicable credit reporting agency.

If you request a credit freeze online or by phone, then the credit reporting agencies have one (1) business day

Infosys[®] McCamish

after receiving your request to place a credit freeze on your credit file report. If you request a lift of the credit freeze online or by phone, then the credit reporting agency must lift the freeze within one (1) hour. If you request a credit freeze or lift of a credit freeze by mail, then the credit agency must place or lift the credit freeze no later than three (3) business days after getting your request.

Fraud Alerts

You also have the right to place an initial or extended fraud alert on your file at no cost. An initial fraud alert lasts 1-year and is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting 7 years. Should you wish to place a fraud alert, please contact any one of the agencies listed below. The agency you contact will then contact the other two credit agencies.
