Dear Mr. Stanak:

Your public records request of August 31, 2017 concerning **copies of documents produced by counsel for the State, the NRB and VTRANS in which analyses and conclusions are stated in support of dissolving Act 250 jurisdiction, .diminishing enforcement under the terms of the District 7 land use permit and joining with VAST in its claim that federal pre-emption should be complete** has been received.

This email is to inform you that in order to properly respond to your request, we will require additional time to search for and collect a potentially large number of records that may be situated at several locations, as well as to consult with the Attorney General's Office and other agencies and departments of state government. We regard these circumstances to constitute "unusual circumstances" under 1 V.S.A. § 318(a)(5), which allows an extension of up to 10-business days from date of receipt of the request for the Agency to respond. This will mean that you should receive records responsive to your request, should any be identified, by **September 18, 2017**.

If at all possible, we will attempt to comply with your request sooner than the end of the 10-business day period noted above. If you have any questions, please give me a call at the number listed below.

I will be your point of contact in the processing of this request and will contact you should we require any further information. I have attached a fee schedule, authorized by law (1 V.S.A § 316(d) and Acts 1996, No. 159 section 1) that may apply to your request.

If you have any questions, please give me a call at the number listed below.

Thank you,

*AOT Public Records Manager
