Subject: Solar City complaints

To Whom It May Concern:

On May 19, 2017, I signed a contract with Solar City for the installation of solar panels on my roof. In recent weeks I have been made aware of concerns some consumers may have with this company, its product, and/or integrity of the contract. I am requesting any public records you may have on file regarding concerns and/or complaints that have been filed with your office with regard to Solar City and its products and business dealings.

Thank you,

Brian G. DuPrat
