Dear Vermont Office of the Attorney General,

Under the Vermont Public Records Law, I am requesting an opportunity to inspect or obtain copies of the public records described below on behalf of my client, SambaSafety. Since 1998, SambaSafety has led the transportation industry in driver risk management software. Its mission is to promote safer communities by reducing risk through data insights.

Unless otherwise specified, the relevant period for these Requests is from January 1, 2010, to the present. Please send all records responsive to this request to ketan.bhirud@troutman.com. If there are any fees associated with searching or copying these records, please inform me of the cost. The Vermont Public Records Law requires a response no later than three business days from receipt of a written request. If access to the records I am requesting will take longer than this amount of time, please contact me at 702-468-8779 to let me know when I will receive access to the records. If you withhold any documents in response to these requests, please cite the specific exemptions you rely on to justify the refusal to release the information.

Please note that SambaSafety's goal is to obtain copies of any agreements to provide traffic records in your state to any person or entity. SambaSafety does not intend to impose an undue burden and is happy to discuss ways to limit these requests. To that end, I would welcome a discussion with the records custodian and am available at your convenience at Ketan.Bhirud@troutman.com or (702) 468-8779.

Thank you for considering my request.
