### Fraud Alerts

In addition to completing IdentityWorks<sup>SM</sup> registration, AT&T strongly suggests that you contact the fraud departments of any one of the three major credit reporting agencies and let them know you may have potentially experienced identity theft. That agency will notify the other two. Through that process, a "fraud alert" will automatically be placed in each of your three credit reports to notify creditors not to issue new credit in your name without gaining your permission. We also encourage you to carefully review your credit report(s). Look for accounts you did not open and inquiries from creditors that you did not initiate. Also review your personal information for accuracy, such as home address and Social Security number. If you see anything you do not understand or that is inaccurate, call the credit reporting agency at the telephone number on the report. If you find suspicious activity on your credit reports or bank account, call your local police or sheriff's office and file a police report of identity theft. Get a copy of the police report. You may need copies of the police report to clear your personal records. You can also request information from the agencies about the option of placing a security freeze on your credit reports.
