Zydus sells its products to retailers and wholesalers. Zydus prices its products based on the current market conditions.	As Zydus distributes generic products, we do not estimate the number of patients that may be prescribed our products. Volume is based on an estimated market share along with IQVIA EUTRx data and/or usages provided by our customers. Volumes are also based on national level data, and we do not break these estimates down to a patient or state level.	No	No	N/A
