Vermont Earth Day Essay!

By Lucy [REDACTED]

Come to Vermont! Vermont has very pretty leaves in the fall and beautiful snowy mountains in the winter and, of course, maple syrup in the spring. The Green Mountain State also has nice cold rivers in the summer, and pretty flowers. These are some reasons why Vermont's seasons are amazing!

It's great to come to Vermont in summer. There are many things to do. You could go fishing in our local lakes and ponds or you could go swimming in local rivers. If you don't like swimming or fishing though, then you can go to our farmer's markets, and cute shops around your area. For example the Farmer's Market in Brattleboro happens every Wednesday and Sunday, it's a lot of fun to look at locally made items and try snacks you won't find anywhere else. There are also the downtown Brattleboro stores like Beadniks, Boomerang, or Brilliance to name a few. Summer isn't the only season you can enjoy though.

In fall the leaves are various different colors. There are yellow, red, orange and brown leaves all of which are very pretty blended together across Vermont's landscape. During the fall there are many fun activities that you can do. You could take a hayride or a walk on a dirt road observing the scenery. There is also apple picking and or pumpkin picking that leaves you with a delicious snack afterwards, and if you visit on halloween there are many events that you can go to. If it is your cup of tea then you can go to a haunted house and do some trick or treating. As long as you bring your costume of course! You could also rent a house and have Thanksgiving up here. There are many deer and turkey to hunt for, but watch out for the bears!

Or maybe you should come in winter? In winter there is skiing, snowboarding, skating among other things too. You can do a lot of different types of skiing, my favorite is down hill but there is also cross country. There are yummy waffles here, at the mountain. If you don't like skiing then maybe you will like sitting down for waffles and a cup of coffee.

Sitting by a warm fire can also be very cozy. You can also put on skates and do ice skating at a local ice rink!

Lastly, if you aren't afraid of some mud, you can come enjoy the back muddy roads. These roads can lead you to a sugar house, where you can try delicious Vermont made maple syrup. Or maybe when Spring time hits you can visit a farm and see newborn spring animals.

For all these reasons and so much more are why you should come to Vermont! Maybe if you come you can also find another reason why this is a place to put on your calendar. From Summer to Winter, Fall to Spring any season can surely make your holiday to Vermont special. I hope you found a reason that you should visit, and if you did I hope for your holiday to Vermont to be amazing.
