Please describe the records you are requesting and provide as much specificity as possible, including applicable date ranges.

I am looking to study the Vermont town tuitioning program. As a PhD student studying economics, I'm particularly interested in how schools behave in response to the subsidy provided by the state.

Ideally your office could provide some subset (or all!) of the following:

- * How many town tuitioned students from each town are enrolled at each school
- * Some measure of student outcomes (e.g. SAT scores, college attendance, etc) for students at schools receiving tuitioning
- * Demographic information on students receiving tuitioning (race, income, reduced price lunch status, etc)
- * What the tuition payment from the government is vs. what the schools' sticker prices are.

If these records exist, I'd like them for as many years as is feasible.

If there are open questions of interest within the Vermont Department of Education (related to this or otherwise) I'd certainly be happy to hear about them! Similarly, would be happy to speak more about my project either over email or Zoom if it would be helpful.

Thank you!
