**Please describe the records you are requesting and provide as much specificity as possible, including applicable date ranges.**

For the past three or so years, I have been licensing photography to the Department of Tourism. Recently, they put out an RFP which I submitted a bid for. I sent my proposal a week before the deadline as well as a follow up to ensure it was received and to make sure no additional info was needed on my end. I didn't receive a response. A week after the deadline, my contact there said my proposal was never forwarded along to him. I reached out to Michele Synder for a third time to inquire about my bid. She said she has no record of it. I was later told it was received but not on time. Typically, if an email doesn't go through, I will get an alert on my end. In this case I didn't receive anything. I have email records on my end showing I submitted it on time as well as my follow up email which was sent prior to the deadline. I reached out with a few questions and have received conflicting accounts and many of my questions have been unanswered. This is my livelihood on the line and if my emails are not going through, I need to know. However, if it is not an issue on my end, I would like to see any IT records as to what happened with this lost email causing me to be ineligible for the position.

**Declaration (Required)**

Yes
