Re: Public Records Request

Dear Mr. Adams:

I write in response to your Public Records Act request received by the Attorney General's Office on October 29, 2024 in which you requested: "All records pertaining to Wells Fargo consumer data breach accounts that was reached on on behalf of my account pertain to data related information." We understand this as a request for any documents related to a Wells Fargo data breach that was reported in September 2024.

In response to your request, we have identified four documents in our records related to a security breach reported by Wells Fargo. I have enclosed with this email PDFs of three of those documents, all of which are security breach notices provided to our office by representatives of Wells Fargo in September 2024.

I have withheld one document pursuant to the Vermont Public Records Act's exemption for records "that by law are designated confidential," 1 V.S.A. § 317(c)(1), as the withheld document is a Preliminary Notice of a data breach, dated September 19, 2024. Preliminary Notices are confidential as a matter of law pursuant to 9 V.S.A. § 2435 (b)(3)(B)(iv). Note that, although this document has been withheld due to legal requirements, it does not contain any information that is not already provided in the other documents being produced to you today.

To the extent you feel information has been withheld in error, you may appeal to the Deputy Attorney General, Robert McDougall. Such appeal should be in writing to: Attorney General's Office, Attn: Robert McDougall, 109 State Street, Montpelier, VT 05609-1001 or ago.publicrecordsrequests@vermont.gov.

Sincerely,

A handwritten signature in cursive script that reads "James Layman".

Protecting your accounts

Monitor your account statements often (even daily in online banking) to review all charges and transactions. Contact us immediately at 1-800-TO-WELLS (1-800-869-3557) 24 hours a day, and 7 days a week, if you see discrepancies or unauthorized activity on your Wells Fargo accounts. We will carefully review them for reimbursement in accordance with our policies.

If available, consider placing password protection on your Wells Fargo accounts, and do not use any part of your social security number as the username or password. To find out if password protection is available for your accounts, visit any Wells Fargo branch. Or we can help you close these accounts and transfer the money to new accounts. For this option, please call us at 1-800-TO-WELLS (1-800-869-3557), 24 hours a day, and 7 days a week, or visit any Wells Fargo branch.

If your username or email address, with a password or security question and answer that would permit access to an online account were involved, promptly change your username or password and security question or answer, as applicable, or take other appropriate steps to protect online accounts for which you use the same username or email address and password or security question and answer.

Do not write down or share your Personal Identification Number (PIN) number or passwords with anyone.

If you receive suspicious emails that claim to be from Wells Fargo, forward them to reportphish@wellsfargo.com and then delete them.

If you have accounts at other financial institutions, please notify them and they can advise you on additional steps to take. For more tips on how to protect your Wells Fargo accounts, please visit www.wellsfargo.com/privacy_security/fraud

Protecting your identity

Check your credit report to ensure all your information is correct. You can obtain a free credit report from each of the three major credit bureaus every 12 months by visiting www.annualcreditreport.com or calling 1-877-322-8228. Credit bureau contact details are provided below.

Equifax®:
1-800-525-6285 or
www.equifax.com
P.O. Box 740241
Atlanta, GA 30374

Experian®:
1-888-397-3742 or
www.experian.com
P.O. Box 9532
Allen, TX 75013

TransUnion®:
1-800-680-7289 or
www.transunion.com
P.O. Box 6790
Fullerton, CA 92634

You also may want to consider placing a freeze on your credit file. A credit freeze means potential creditors cannot get your credit report and makes it less likely that an identity thief can open new accounts in your name. To place a freeze on your credit you can contact the nationwide credit bureaus. You can freeze your credit for free, but you'll need to supply your name, address, date of birth, social security number and other personal information. After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze. To lift the freeze, you will need to contact the credit bureaus again.

Place a fraud alert on your credit file. A fraud alert tells creditors to contact you before they open any new accounts or change your existing accounts. Call any one of the three major credit bureaus listed to the left. As soon as one credit bureau confirms your fraud alert, the others are notified to place fraud alerts.

This provides a significant layer of protection; however, it may limit your ability to get "instant credit" such as the offers often available at retail branches.

If you believe you are a victim of identity theft, report it to your local law enforcement agency and to the Federal Trade Commission (FTC) or your state Attorney General. In some states, you may be entitled to file or obtain a police report, if such a report exists.
