Subject Freedom of Information Request - Settlement Between Vermont and Bank of America

Message Attorney General T.J. Donovan, is the settlement reached between your state and Bank of America sealed from public access? The title of the article written by Erin Mansfield July 10, 2015, is "Bank of America will pay the state of Vermont \$1.25 million to settle a lawsuit that alleged that the company violated the state's foreclosure laws even after it settled a high profile case with the federal government."
