---

Dear Attorney General,

I am an agricultural produce and hemp farmer. I have lived on my property for 8 plus years and my neighbor less than 2 years. I have been farming for 7 years on my property. I have 5 greenhouses on less than 1/4 of an acre that I use for my produce and hemp for growing. I am a single mother of two boys and this is how I make most of my living and my income is well below poverty level.

On May 11, 2018 my neighbor had a bon fire burning boxes, brush and plywood in his back yard resulting in burning holes in my greenhouse plastic from the flying burning debris. I noticed the holes a few days later and proceeded to contact my state farm insurance to see if I had coverage for the damage and was told I do. I asked if this will hurt my insurance premium and was told no because he's at fault and will have to pay back the money for the damages. State farm came and did an inspection and gave me a quote on June 18th 2018. On 6-22-2018 my neighbor had another bon fire and I called the police and ask them to make him put it out for I had already put in a claim for damages from his last fire in May. The fire chief showed up and canceled the fire. I called back and said that fire needs to go out this is my lively hood and hes destroying it with his fires. The police dispatch had the fire truck come down .I was outside when they arrived and by then the fire had died down quite a bit. They told my neighbor not to put anymore wood on the fire but never made him put it out. I was then laughed at in front of the fire team from my neighbor. He repeatedly said it doesn't matter your greenhouses are coming down anyways. I said you cannot burn fires like that around my greenhouses it destroyed my plastic from the last fire you had and I already made a claim with my state farm insurance. The fire department left.

On April 2019 my homeowners insurance state farm canceled my insurance because my neighbor never paid the fire bill. Since April my homeowners insurance has doubled because this was my second claim in 5 years because of my neighbor. I asked my homeowners insurance why they were canceling me and was told they needed the fire report and any information showing proof of the fire. I sent them pictures and I have a video of his fire and the debris flying in the air. I called the fire chief for the report and his report is totally different from what I called in to the police. My neighbor is on the town select board and is friends with the fire chief whom is the one that came to the call first and canceled the fire call. I was told my neighbor had a fire permit for a camp fire which you don't need. The only time someone needs a permit is if they are having a big fire to burn brush. I cannot send in the fire chiefs report because he said I called because I was causing trouble and I didn't like my neighbor, making me look like I lied. So I called the police and asked for the voice clip of my calls for my insurance company and was told no that I had to have a lawyer or a court order to get it by subpoena. I sent numerous emails to the police asking for this info and they informed them that I cannot have the information that I needed even after I made them aware that this is freedom of information act request. This is freedom of information act request and I am allowed to have this information as long as its not a criminal case or court issues, according to legal counsel.

I can elaborate more on this issue but for now this is a brief summary of the complaint. I am

asking the Attorney General to help me get the information from the police that I need for my fire insurance.

Thank You
