*If this is a trade secret, do not answer the question and provide a succinct explanation demonstrating all of the following for the data element:

1. The information is not patented;
2. The information is known only to certain individuals within the manufacturer's organization and used in a business the organization conducts;
3. The information has actual or potential commercial value;
4. The information gives the manufacturer an opportunity to obtain a business advantage over competitors who do not know or use it;
5. The public interest does not require disclosure of the information.
