Served as co-lead counsel for the largest settlement in world history against Big Tobacco, and at the time the largest automotive, antitrust, ERISA and securities settlements in U.S. history.

Steve Berman represents consumers, investors and employees in large, complex litigation held in state and federal courts. Steve's trial experience has earned him significant recognition and led The National Law Journal to name him one of the 100 most powerful lawyers in the nation, and to repeatedly name Hagens Berman one of the top 10 plaintiffs' firms in the country. Steve was named an MVP of the Year by Law360 in 2016 and 2017 for his class-action litigation and received the 2017 Plaintiffs' Trailblazer award. He was recognized for the third year in a row as an Elite Trial Lawyer by The National Law Journal.

Steve co-founded Hagens Berman in 1993 after his prior firm refused to represent several young children who consumed fast food contaminated with E. coli—Steve knew he had to help. In that case, Steve proved that the poisoning was the result of Jack in the Box's cost cutting measures along with gross negligence. He was further inspired to build a firm that vociferously fought for the rights of those unable to fight for themselves. Berman's innovative approach, tenacious conviction and impeccable track record have earned him an excellent reputation and numerous historic legal victories. He is considered one of the nation's most successful class-action attorneys, and has been praised for securing record-breaking settlements and tangible benefits for class members. Steve is particularly known for his tenacity in forging consumer settlements that return a high percentage of recovery to class members.

- Visa MasterCard ATM Antitrust Litigation - \$27 billion
Co-lead counsel in what was then the largest antitrust settlement in history: a class-action lawsuit alleging that Visa and MasterCard, together with Bank of America, JP Morgan Chase and Wells Fargo, violated federal antitrust laws by establishing uniform agreements with U.S. banks, preventing ATM operators from setting ATM access fees

below the level of the fees charged on Visa's and MasterCard's networks.

- **Toyota Sudden, Unintended Acceleration** - \$1.6 billion
Hagens Berman was co-lead counsel in this massive MDL alleging that Toyota vehicles contained a defect causing sudden, unintended acceleration (SUA). It was the largest automotive settlement in history at the time, valued at up to \$1.6 billion. The firm did not initially seek to lead the litigation, but was sought out by the judge for its wealth of experience in managing very complex class-action MDLs. Hagens Berman and managing partner Steve Berman agreed to take on the role of co-lead counsel for the economic loss class and head the plaintiffs' steering committee.
- **Washington Public Power Supply System (WPPSS)** - \$700 million settlement
Represented bondholders and the bondholder trustee in a class-action lawsuit stemming from the failure of two WPPSS nuclear projects. The case was one of the most complex and lengthy securities fraud cases ever filed. The default was one of the largest municipal bond defaults in history. After years of litigation, plaintiffs were awarded a \$700 million settlement agreement brought against more than 200 defendants.
- **E-books Antitrust Litigation** - \$560 million settlement
Fought against Apple and five of the nation's top publishers for colluding to raise the price of e-books, resulting in recovery equal to twice consumers' actual damages. The firm recovered an initial settlement of more than \$160 million with defendant publishing companies in conjunction with several states attorneys general. Steve then led the firm to pursue Apple for its involvement in the e-book price hike. Apple took the case to the Supreme Court, where it was ruled that Apple had conspired to raise prices, and the firm achieved an additional \$450 million settlement for consumers.
- **Enron Pension Protection Litigation** - \$250 million settlement
Led the class-action litigation on behalf of Enron employees and retirees alleging that Enron leadership, including CEO Ken Lay, had a responsibility to protect the interests of those invested in the 401(k) program, an obligation they abrogated. The court selected Steve to co-lead the case against Enron and the other defendants.
- **Charles Schwab Securities Litigation** - \$235 million settlement
Led the firm to file the first class-action lawsuit against Charles Schwab on Mar. 18, 2008, alleging that Schwab deceived investors about the underlying risk in its Schwab YieldPlus Funds Investor Shares and Schwab YieldPlus Funds Select Shares.
- **JP Morgan Madoff Lawsuit** - \$218 million settlement
Represented Bernard L. Madoff investors in a suit filed against JPMorgan Chase Bank, one of the largest banks in the world.
- **Boeing Securities Litigation** - \$92.5 million settlement
Represented a class of tens of thousands of shareholders

against Boeing, culminating in a proposed settlement that was the second-largest awarded in the Northwest.

- **NCAA Concussions** - \$75 million settlement, and 50-year medical monitoring fund
Led the firm's pioneering NCAA concussions suit that culminated in a proposed settlement that will provide a 50-year medical-monitoring program for student-athletes to screen for and track head injuries; make sweeping changes to the NCAA's approach to concussion treatment and prevention; and establish a \$5 million fund for concussion research, preliminarily approved by the court.
- **US Youth Soccer Settlement** - Revolutionary settlement that changed U.S. Soccer regulations and brought sweeping safety measures to the game. Steve spearheaded a lawsuit against soccer-governing bodies, achieving a settlement that ended heading of the ball for U.S. Soccer's youngest players and greatly diminished risk of concussions and traumatic brain injuries. Additionally, the settlement highlights the importance of on-staff medical personnel at youth tournaments, as well as ongoing concussion education for coaches.

RECENT CASES

- **Emissions Litigation**
Steve has pioneered pursuing car manufacturers who have been violating emissions standards, including: Mercedes BlueTEC vehicles, GM Chevy Cruze, Dodge Ram 2500 and 3500 trucks, Dodge Ram 1500 and Jeep Cherokee EcoDiesel vehicles, Chevy Silverado, GMC Sierra as well as other models made by Ford, Audi and BMW. Steve and the firm's unmatched work in emissions-cheating investigations is often ahead of the EPA and government regulators.
- **General Motors Ignition Switch Defect Litigation**
Steve serves as lead counsel seeking to obtain compensation for the millions of GM car owners who overpaid for cars that had hidden safety defects.
- **NCAA Grant in Aid Scholarships - \$208 million**
Served as co-lead counsel in the Alston case that successfully challenged the NCAA's limitations on the benefits student-athletes can receive as part of a scholarship, culminating in a \$208 million settlement. The recovery amounts to 100 percent of single damages in an exceptional result in an antitrust case. Steve will co-lead a trial this year on the injunctive aspect of the case that could result in a change of NCAA rules limiting the financial treatment of athletes. The trial may change the landscape for how NCAA football and basketball players are compensated.
- **Climate Change – New York City, King County.**
Steve has always been a fighter for the rights of the environment. In 2018, he began the firm's latest endeavor to combat global climate change. Steve filed climate change cases on behalf of New York City and King County, WA against the world's largest producers of oil: BP, Chevron Corp., Exxon Mobil Corp., Royal Dutch Shell plc and

ConocoPhillips. The cases seek to hold the Big Oil titans accountable for their brazen impact on global warming-induced sea level rise and related expenses to protect the City and County and their millions of residents.

- **Opioids - Orange County and Santa Clara County, Seattle**
Steve has been retained by various municipalities, including the states of Ohio, Mississippi and Arkansas, Orange County, as well as the city of Seattle to serve as trial counsel in a recently filed state suit against five manufacturers of opioids seeking to recover public costs resulting from the opioid manufacturer's deceptive marketing.
- **Antitrust Litigation**
Corporate fraud has many faces, and Steve has taken on some of the largest perpetrators through antitrust law. Steve serves as co-lead counsel in Visa MasterCard ATM, Batteries, Optical Disc Drives and is in the leadership of a class-action lawsuit against Qualcomm for orchestrating a monopoly that led to purchasers paying significantly more for mobile devices. He serves as interim class counsel in a case against Tyson, Purdue and other chicken producers for conspiring to stabilize prices by reducing chicken production. Most recently, Steve filed a proposed class-action lawsuit against the world's largest manufacturers of Dynamic Random Access Memory (DRAM) for cornering the market and driving up DRAM prices.
- **Consumer Protection**
Steve is a leader in protecting millions of consumers in large-scale cases that challenge unfair, deceptive and fraudulent practices. He leads a class action on behalf of owners of Ford vehicles equipped with MyFord Touch, an in-car entertainment system, who claim the system is flawed, putting drivers at risk of an accident while causing economic hardship. Steve recently filed a class-action lawsuit against Facebook for allowing personal data to be harvested for psychographic profiling.

RECENT SUCCESS

- **Volkswagen Franchise Dealerships - \$1.6 billion**
Lead counsel for VW franchise dealers suit, in which a settlement of \$1.6 billion has received final approval, and represents a substantial recovery for the class.
- **Stericycle Sterisafe Contract Litigation – \$295 million**
Hagens Berman's team, led by Steve Berman, filed a class-action lawsuit against Stericycle, a massive medical waste disposal company and achieved a sizable settlement for hundreds of thousands of its small business customers.
- **Dairy Price-Fixing – \$52 million**
This antitrust suit's filing unearthed a massive collusion between the biggest dairy producers in the country, responsible for almost 70 percent of the nation's milk. Not only was the price of milk artificially

inflated, but this scheme ultimately also cost 500,000 young cows their lives.

BARON & BUDD, P.C.

SCOTT SUMMY
“THE WATER LAWYER”

Summy's Practice

Scott Summy is a shareholder at Baron & Budd, one of the largest and oldest firms in the United States that specializes in environmental litigation. Mr. Summy heads up the firm's Environmental Litigation Group, which litigates complex environmental contamination cases all over the country. The Group represents public entities in litigation to recover costs of removing chemical contamination from public water supplies, governmental facilities, natural resources, and public property. Through this type of litigation, the Group seeks to shift the costs of remediation to the chemical manufacturers and suppliers responsible for the contamination --- and away from public entities and taxpayers.

PCBs

The Group filed a lawsuit against the Monsanto Company and its corporate successors on behalf of a public school district in Massachusetts. The lawsuit alleges that Monsanto knew about the dangers of PCBs as early as the 1930s but failed to warn people of the severe dangers associated with PCBs and their use in common building materials. The litigation seeks to require Monsanto to pay for removing PCB-containing materials from the contaminated schools. The group also represents the City of Hartford/Hartford Board of Education in Connecticut whose schools have been contaminated with PCBs.

The Group also filed a lawsuit on behalf of the City of San Diego to restore the health and quality of San Diego Bay and to preserve this valuable waterway for all future uses. The City is a trustee of the Bay and is charged with protecting the Bay for the public benefit. After the State Water Resources Control Board detected toxic contaminants known as PCBs in the water and sediments of the Bay, the City committed to remove these chemicals from this important natural resource. To recover the costs associated with these efforts, the City filed a lawsuit against Monsanto Company and its corporate successors.

The Group has filed lawsuits on behalf of the Cities of Berkeley, Long Beach, Oakland, Portland, San Jose, Seattle and Spokane as well as the Port of Portland and the State of Washington due to PCB contamination.

Water Contamination

Mr. Summy regularly represents public water providers (e.g., municipalities, water districts, utilities, and school districts) whose water is contaminated by intrusive chemicals. On behalf of these clients, Mr. Summy seeks cost recovery for treatment facilities, operation and maintenance costs, out-of-pocket expenses, and administrative costs. Mr. Summy also represents private well owners around the country whose wells are contaminated.

The Environmental Litigation Group has represented hundreds of public water providers in litigation arising from contamination of water supplies with MTBE, a gasoline additive. Mr. Summy has recovered over a billion dollars against major oil companies who decided to blend MTBE into gasoline knowing that it would likely contaminate water supplies. In one set of cases, involving approximately 150 water providers, Mr. Summy negotiated settlements totaling

over \$450 million. Mr. Summy continues to file new MTBE cases across the country and currently represents the State of Vermont, the State of Rhode Island and a number of municipalities in new MTBE litigation.

Mr. Summy also represented all public water providers in the United States whose water was contaminated with atrazine, a common agricultural chemical used on corn and other crops. On behalf of these water providers, the Group brought claims against Syngenta, the company that makes atrazine and is aware that its normal use causes drinking water contamination. Mr. Summy negotiated a settlement awarding \$105 million to over 2,000 water providers.

The Group also represents public water providers and other public entities in litigation involving other chemicals that contaminate water supplies and property including TCP, TCE, PCE, and PCBs.

California Wildfires

Mr. Summy and the Group have teamed up with The Singleton Law Firm; Dixon, Diab & Chambers; Thornsnes Bartolotta McGuire LLP; and Terry Singleton to form the California Fire Lawyers (“CFL”). CFL has been retained by hundreds of individuals and businesses who have sustained significant losses due to the 2017 wildfires and related mudslides in California. In addition, the team represents the following municipalities for losses incurred by the wildfires and mudslides: Sonoma County, Napa County Mendocino County, Santa Barbara County, City of Santa Barbara, the Montecito Water District, Lake County, Ventura County, City of Ventura and Fire Protection Districts. Mr. Summy serves as an Interim Co-Chair of the American Association for Justice Wildfire Litigation Group.

PFAS

Mr. Summy and the Group are currently seeking relief on behalf of public water providers and individuals against E. I. du Pont de Nemours and The Chemours Company for decades-long contamination of the Cape Fear River, along with the air and groundwater near the Fayetteville, North Carolina, plant, from Gen-X compounds and dozens of other per- and polyfluoroalkyl substances in the PFAS chemical family. For 35 years DuPont and Chemours have contaminated the river and over a hundred private wells around the plant. Mr. Summy and the Group represent Brunswick County, the Town of Wrightsville Beach, and the Lower Cape Fear Water & Sewer Authority as they seek to recover the costs of removing all PFAS chemicals before the water is distributed to the public. The Group also represents the owners of most of the private wells around the plant that have been contaminated and is seeking damages for well filtration, all costs associated with filtration and property damage. This case is of national significance as focus has shifted to the prevalence of PFAS chemicals around the country.

Gulf Oil Spill

Mr. Summy’s experience with environmental litigation led to a leadership role in the litigation arising from the Deepwater Horizon explosion and oil spill in the Gulf of Mexico. In 2010, he was appointed to the Plaintiffs’ Steering Committee and Plaintiffs’ Executive Committee in the Gulf Oil Spill Multi-District Litigation in the Eastern District of Louisiana. In that capacity, he played a critical role in negotiating a settlement and claim procedure for the tens of thousands of individuals, businesses, and governmental entities injured by the oil spill. Mr.

Summy and the Group also represent hundreds of businesses with claims against BP and have recovered in excess of \$100 million on behalf of these clients. Mr. Summy also represents a number of public entities who have sustained loss of tax revenue due to the oil spill. Mr. Summy assisted these public entities in recovering significant losses due to the oil spill.

Santa Barbara Oil Spill

Mr. Summy currently represents Santa Barbara County to pursue their legal rights against Plains All-American Pipeline. Their pipeline ruptured spilling oil in the vicinity of Santa Barbara. Mr. Summy successfully represented the City of Santa Barbara against the same entity.

TCE – Ametek Facility Discharge

Mr. Summy and the Group have filed lawsuits on behalf of individuals and property owners who have been affected by a plume of chemicals, including TCE, emanating from the Ametek facility in El Cajon, California. This plume has been described as the largest TCE plume in the State of California and threatens the groundwater in the area.

Coal Ash – Duke Energy

Mr. Summy and the Group have been retained by residents living nearby Duke Energy Coal Ash ponds. Chemicals have leaked from these ponds and contaminated drinking water wells with hexavalent chromium and other dangerous chemicals.

Top Awards

The Group's important work for public water providers has been recognized by the legal community on a number of occasions. His groundbreaking work for California communities affected by MTBE won Mr. Summy and his legal team the "Attorneys of the Year" award from California Lawyer in 2001. And Public Justice twice named Mr. Summy and his team as Finalists for the organization's Trial Lawyer of the Year Award --- in 2009, for cases arising from MTBE contamination, and again in 2013, for cases arising from atrazine contamination. Mr. Summy was also included in The Best Lawyers in America 2006-2018 editions.

Mr. Summy is licensed to practice law in Texas, North Carolina and New York. He is AV-rated by Martindale Hubbell.

Clean Water:

Mr. Summy has obtained settlements for his clients in excess of \$1 billion. These results have helped provide clean drinking water and a cleaner environment to millions of Americans.

Publications

Summy has published articles regarding the legal aspects of handling cases involving chemicals that impact his clients. In 2003, Summy's MTBE water clients were placed at tremendous risk when the "MTBE Liability Waiver" provision was added to the proposed Energy Bill coming out of the Legislature's Conference Committee. The MTBE Liability Waiver would have stripped Summy's MTBE water clients of their rights to pursue the major oil companies under a products liability cause of action. Summy attempted to assist his clients by criticizing the controversial provision. These are cited as follows:

"MTBE Immunity Provision A Bad Idea," Texas Lawyer, October 13, 2003

"'Fuel Safe Harbor' Provision Grants Immunity to MTBE Manufacturers," New Jersey Law Journal, Vol. CLXXIV - No. 3 - Index 237, October 20, 2003

"Cities May Lose Rights to Pursue Oil Companies for MTBE Contamination," New Jersey Conference of Mayors, February, 2004

One article authored by Summy was picked up by legal journals and mainstream publications in 124 instances in 15 states with a readership total of 4,434,256. This article was entitled, "Should the Public Pay for the Oil Industry's Mistake?"

Summy also co-authored an article entitled, "The Texas Residential Construction Liability Act: Framework for Change." It appeared in the Texas Tech Law Review, 27 Texas Tech Law Review 1 - 31 (1996).
