Please describe the records you are requesting and provide as much specificity as possible, including applicable date ranges.	We are requesting operation costs and setup for Brattleboro and Burlington's waste collection program, including annual costs, service levels, and setup of waste management system. This includes: vehicle costs (e.g. trucks used to collect garbage and recycling), labor costs-split by collections (drivers, driver helpers, support staff), MRF tipping fee or landfill disposal fees, litter cleanup costs, and recycling cart/container capital costs. We are looking for service level information including, number of households served by recycling and garbage services (with single and multi-family information if possible), the number of trucks used in your fleet, and collection frequency of recycling and garbage services. We would like to know about the setup including, are garbage and recycling collected with split-body trucks, or through dedicated routes? Are your trucks serving just Brattleboro/Burlington, or other neighborhoods? Is the service subscription, automatic enrollment, or opt-out for households? What types of receptacles (e.g. bags, carts) do residents use? We are requesting information from the last 3 years if possible.
