5th grade

INTRO

What's your favorite thing to do outside?

My favorite thing to do outside is play sports. The two sports I like to play outside are baseball and football. And also just hiking through the woods.

BASEBALL

My favorite feeling about the outside when i play baseball is the nice breeze on my face. And the heat when I'm sitting in the Doug out before the game. I also like when the rain fall right on my hat. I love baseball because it reminds me of earth day.

FOOTBALL

In football my favorite part about the outside is when i have a game in the morning when the grass is wet on my feet and the nice wind. And when i slide onto the ground and get all wet. Football makes me feel like I'm a part of earth day.

HIKING

another thing I like to do outside is go hiking. My favorite thing about hiking is walking through the woods and then when your done you can look at the view. And the sound of the wind blowing the trees while the leaves make a wonderful sound. Also the nice shade from the sun. Hiking makes me feel like a part of earth.

CONCLUSION

All of these reasons are why i love the outdoors. I hope you will start to like the outside more now! I hope you like some stuff about your environment. These things are all the things that remind me of earth day. I hope the stuff you love about the outdoors makes you feel like a part of earth day. Baseball,football, hiking these are all my favorite things.
