

Have you ever been to vermont? My favorite things to do in vermont are fishing sugaring and camping and riding four wheelers.

Fishing

Well i was born and raised in vermont and still live here. I love to fish in vermont. We have pumpkin seed bass and many more. We have so many lakes like lake Willoughby silver lake and lake eden. There is no ether Good feeling then fishing well the sun goes down. The feel of the sand. The sound of the boats. This is the real way to fish. Come to vermont and fish.

Sugaring

If you have been to vermont then you know about mud season. Or Sugaring season you will see the old way to boil. The buckets on the tree. The good old way of sugaring. We use a old ford tractor. And a Honda for Wheeler. The mud is so deep. Daylight savings. The last snowmobile ride, baseball around the corner. And vermont pure fresh maple syrup. Go to Erika's diner and get pancakes. They have amazing maple Syrup.

Camping

If you are still here then you like camping. Weather its tenting or with a camper it so much fun. We camp at a racetrack named thunder road in barre vermont. But no matter were you go you will have fun. You can ride trails with your for Wheeler or Buggy.

Four Wheelers

This is going to be a short paragraph. But i have to say... vermont has the best four wheelers! I found a 2004 Honda sportrax 250ex and i got it and i love it!!!

Those are four things that i like to do in vermont.
