

Earth day essay

Intro

What do you enjoy about Earth Day? I enjoy Earth Day by going out on the lakes and in the vast forests of Vermont. I enjoy the forests and Lakes because every fall me and my dad go hunting in our backyard and we go fishing on Lake Arrowhead.

Hunting

My dad and I enjoy going hunting because we both love the thrill of shooting and tracking a deer through the forest. My favorite part of hunting is finding your deer that you shot then bringing it home. It's always so much fun to go hunting with my dad in Vermont. That's how I enjoy Vermont's Forests.

Fishing

Also my dad and I go out on Lake Arrowhead every summer and spring to go fishing and we have so much fun fishing. It's so much fun pulling a fish out of Lake Arrowhead. That's how I enjoy Vermont's Lakes.

Conclusion

I enjoy Earth Day and after my story you should enjoy Earth day too. Earth Day is so amazing because of Vermont and its vast forests and beautiful lakes. That's how I enjoy Earth Day.
