Re: Public Records Request received on April 10, 2017

Dear Mr. Kramer:

I am writing in response to your request for records that was received by the Vermont Attorney General's Office, Medicaid Fraud & Residential Abuse Unit, on April 10, 2017.

Request

You requested a list of all MDs our Unit has investigated, criminally prosecuted, or initiated civil action against for as far back as our case management computer software maintains records.

For each doctor you requested the "name, date, NPI number, license number, case number and every field available in the database."

Response to Request

Enclosed with this response we have included a spreadsheet providing the information requested above to the extent it exists in our case management system.

The spreadsheet provides the case number and case name. The case number also provides information with regard to the year that the case was received. It must be noted that the appearance of any name on this list does not indicate that the individual named was convicted of, charged with, or that any evidence existed regarding the commission of a crime. The database does not include the NPI number or license number.

Certain records have been withheld from this response pursuant to 1 V.S.A. § 317(c)(5) because those records are exempt from disclosure as they deal with the detection and investigation of crime and disclosure could reasonably be expected to interfere with enforcement proceedings. To the extent you feel information has been withheld in error, you may appeal to the Deputy Attorney General Joshua Diamond.

Subject to the limitation in the preceding paragraph, we believe that this Response to your Public Record Request of April 10, 2017 fully responds to the Request to the extent that Public Records exist.

Best Regards,

 FOR JASON TURNER

Jason Turner
Assistant Attorney General
Director, Medicaid Fraud & Residential
Abuse Unit
