Hi Sara,

I had a conversation this morning with James at your office who advised me to contact you regarding the public record of consumer complaints concerning Griffith Energy - Superior Plus Energy. He said there were quite a few complaints against this business on file and also that there are fees associated with public records requests of \$1 per minute for any time over an initial 29 minutes.

So I need to confer with you. Please reach out me at [REDACTED] or via this email.

I seek the direct advisement of the Attorney General, T.J. Donovan, about whether there are sufficient grounds at this time in the public record for legal action against Griffith.

Can you arrange for Mr. Donovan to review the record?

Thank you very much and all best wishes,

Jari Chevalier
