Under the Vermont Public Records Act, I'm seeking the following documents:

--- 50-page evidence file sent to attorney general TJ Donovan by Kiah Morris and/or James Lawton of Bennington in July 2018 regarding alleged hate crimes against Kiah Morris. This so-called "evidence file" would be considered independent of any materials collected from or submitted by the Bennington Police Department during official Vermont State Police investigations that preceded Mr. Donovan's Jan. 14, 2019 press conference.

We now have proof in our hands that he never investigated one complaint in the Kiah Morris case. No investigation at all.! he just took the BPD's word for everything 100% and never pursued anything other than what was phoned into the BPD. A 50 page evidence file was sent to him with way more incidents of hate and threats than were ever covered by the BPD and the "day after" the circus of a press conference admitted he never even looked at the evidence that was sent to his office in July of 2018.
