Dear Mr. Duty,

Thank you for your recent public records act request dated January 8, 2020. You requested “all records pertaining to all reports of dogs and cats being sickened by campylobacter after consuming raw dog food or raw cat food.”

We have determined that we have no records responsive to your request. If you feel information or records have been withheld in error, you may appeal to the Deputy Attorney General in writing at: Joshua Diamond, Deputy Attorney General, Office of the Attorney General, 109 State Street, Montpelier, VT 05609-1001.

Given that your request relates to a matter involving animals and disease you may wish to reach out to the Vermont Agency of Agriculture to see if there are reports or records related to this matter. Please see: <https://agriculture.vermont.gov/animal-health/animal-welfare> (they also have links to Veterinarians and Veterinary Technician information along with the Vermont Humane Federation which may be useful). I hope this is helpful.

Best, Christopher
