Subject: Vermont Attorney General's Office

Dear [REDACTED]: The Vermont Attorney General's Office received your Vermont Public Records Act request dated January 15, 2020. In that request you seek:

any construction/engineering plans for the [meeting house/First Congregational Church in Randolph] site, in order to design a storm water drainage system. All/any utilities plans, and structural plans for the meeting house.

Please be advised that the Vermont Attorney General's Office has no such records and is not the agency that would normally have such documents. You may wish to make your request to the Vermont Agency of Natural Resources or the Town of Randolph. The Vermont Agency of Natural Resources has a public record act website that might be of assistance: <https://anr.vermont.gov/public-records>

Sincerely,

Robert McDougall
Assistant Attorney General
