Not a clue. I can't search back past the first of the year. No idea what email account either.

Thank you. I count three requests. Were these requests made in one email, or would this have been multiple emails?

The request was seeking records relating to legislation of regulatory authority/licensing granted to the AG or SOS over nursing licensure, authority and jurisdiction of the SOS or OPR over anything, records of the identity of the person who wrote an unsigned email on behalf of the AG from the AG reply email account, and records executive orders or directives from the Governor to the Attorney General telling the latter not to investigate or enforce certain Vermont laws.

Hmm, why don't you tell me the topic of your request and I can have the ago.info account searched for that topic. Would the request have been made using this same email account?

Unfortunately I seem to be unable to search back further than the first of the year, and I am unable to figure out if that is a function of my account or simply account settings.

I've forwarded the earliest email I can find by searching, below, unfortunately I did not receive any response to that email.

Please let me know if the forwarded email was received and simply not responded to, or if it was not received at all. We can extrapolate from there.

Subject: Public records requests

Hello,

I have submitted some outstanding public records requests directed at the Vermont Attorney General, but have not yet received any responses.

Could you please provide me with the status of my public records requests responses?

Thank you,

David Shaddy, RN
