Charity,

Please review “prior to delivery of copies”, as stated by statute.

I have submitted a large number of public records requests to multiple agencies, instrumentalities, and authorities of the Vermont government, and except for this instance, I have not come across any that have reinterpreted the law as regarding estimates and public records as the Attorney General is, now.

I have agreed to the estimated cost, in writing, and I will pay any amount near it prior to delivery of the copies of the responsive records.

Asking around, yesterday, after receiving your email, providing “change” isn’t something that you are able to do as you are not able to cash a check on an estimate, hold money until you perform a task, and then issue a “change” check.

Please proceed with your search and send me the actual cost afterwards. I will pay the costs prior to receiving the copies.

Cheers,

David Shaddy, RN

Have you ever received an estimate for work to be done before? If the basic premise of an estimate is unfamiliar, ask around and get back to me.

If you would like to provide the contact information for an escrow agent, I would consider that option.
