

I am a proud resident of Huntington VT. My most favorite things about living here are the breathtaking views and the awesome variety of outdoor sports/activities. like swimming, mountain biking and skiing. It's very important to me that we keep the lakes clean. We can do this by picking up our pets waste so it can't wash into the lake, recycle and compost as much as you can so the plastic doesn't end up in the lake and walk/bike places as much as you can so you aren't producing lots of carbon dioxide. It is also very important to me that we keep the trails nice for mountain biking. We can do this by picking up trash we see on the trails, pack in pack out and ride/walk/run on the trails when the conditions are good. Another thing that is important to me is we keep the climate cool so we can have those awesome powder days. We can do this by not polluting or decreasing our use of cars and plastic. Thank yourself and others for taking part in helping/caring about our planet.
