

Water Pollution
By keigan march 1, 2022 3-1-22

I believe that water pollution is it a bad thing. Because people and animals can get sick or die, and it is bad for the environment.

Chemicals that chemicals in the ocean make fish and animals sick or die. if the fish die affect the food chain, Then no more sushi.

Water pollution can ruin the beaches

If the beaches get ruined it will impact on the wildlife and people

People want to be able to go to the beach and have fun and play with their families and have kids and anyting And animals won't have a place to live or have kids or have fun either

Conclusion	These are the reasons I believe that water pollution...
