[AH014]<<RE: NOTICE OF DATA BREACH>>

Dear <<Name 1>>:

We are writing to inform you of a cyber incident experienced by WECC Holdings, Inc. d/b/a Watson Electrical (“Watson”) that may have involved your information described below. While we have no evidence of attempted or actual misuse of your information as a result of this incident, we are providing you with information about the incident, our response, and steps you can take to help protect your information.

**What Happened:** On May 27, 2022, Watson was victimized by a sophisticated ransomware attack that impacted our network. Upon discovery, we immediately took steps to review our network security, contacted law enforcement, and began an investigation with the assistance of third-party forensic specialists to determine how this incident occurred. The investigation revealed that certain Watson files, kept in the normal course of business, may have been subject to unauthorized access. Because there was the potential for unauthorized access to personal information contained within those files, we then compiled a list of individuals potentially impacted and worked to obtain sufficient address information in order to provide notification. That process was completed on July 20, 2022. We are now notifying potentially impacted individuals out of an abundance of caution.

**What Information Was Involved:** The information believed to potentially be at risk includes your first and last name, in combination with your <<data elements>>.

**What We Are Doing:** Upon discovery, we immediately engaged third-party forensic specialists to investigate this matter. Out of an abundance of caution, we have arranged for you to activate, at no cost to you, an online credit monitoring service for <<CM Length>> months provided by Equifax. Due to privacy laws, we cannot activate these services for you directly. Additional information regarding how to activate the complimentary credit monitoring service is enclosed. We have also provided additional information about steps you can take to help protect yourself against fraud and identity theft.

**What You Can Do:** We recommend that you remain vigilant in regularly reviewing and monitoring all of your account statements and credit history to guard against any unauthorized transactions or activity. If you discover any suspicious or unusual activity on your accounts, please promptly contact your financial institution or company. Additionally, you can enroll to receive the complimentary credit monitoring service we are making available to you. You can also review the enclosed “Steps You Can Take to Help Protect Your Information” for additional resources.

**For More Information:** Should you have additional questions or concerns regarding this matter, please do not hesitate to contact us at 855-421-2198, Monday through Friday 9am to 9pm Eastern Time.

We take the privacy and security of the information in our care seriously, and sincerely regret any worry or inconvenience it may cause you and your family.

Sincerely,

WebScan searches thousands of Internet sites where consumers’ personal information is suspected of being bought and sold, and regularly adds new sites to the list of those it searches. ## ADDITIONAL ACTIONS TO HELP PROTECT YOUR INFORMATION

### Monitor Your Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your credit reports/account statements for suspicious activity and to detect errors. Under U.S. law, you are entitled to one free credit report annually from each of the three major credit reporting bureaus, TransUnion, Experian, and Equifax. To order your free credit report, visit [www.annualcreditreport.com](http://www.annualcreditreport.com) or call 1-877-322-8228. Once you receive your credit report, review it for discrepancies and identify any accounts you did not open or inquiries from creditors that you did not authorize. If you have questions or notice incorrect information, contact the credit reporting bureau.

You have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any of the three credit reporting bureaus listed below.

As an alternative to a fraud alert, you have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without your express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a credit freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., III, etc.);
2. Social Security number;
3. Date of birth;
4. Address for the prior two to five years;
5. Proof of current address, such as a current utility or telephone bill;
6. A legible photocopy of a government-issued identification card (e.g., state driver’s license or identification card); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft, if you are a victim of identity theft.

Should you wish to place a fraud alert or credit freeze, please contact the three major credit reporting bureaus listed below:
